SCHOLARSHIP AVAILABLE	Yes			Yes
CREDIT TRANSFER	Up to 12 credits or 25% discount towards select Northeastern Master programs			Automatic admission into Level Intermediate with 25% discount

"Level gave me the experience not only with how to use analytics to analyze situations, but also to think about situations and how to abstract my own questions and to look at data with a questioning eye. It's not just answering problems at face value, but identifying what problems might be underlying, and getting creative in designing solutions for that problem."

- Pete Petrin, Intermediate - Fall 2016
